Professional Summary

Full Stack Developer with hands-on experience building production-ready web applications using React, Next.js, Node.js, and PostgreSQL. Experienced in role-based systems, REST APIs, and multi-panel dashboards across real-world projects.

Skills

Languages: Python, JavaScript, PHP

Frontend: React.js, Next.js, Tailwind CSS, DaisyUI, TanStack Query

Backend & Database: Express.js, Node.js, Firebase Auth, JWT

Database: PostgreSQL, Prisma ORM, MongoDB, MySQL

Projects

TaskFlow [Project Link](#)

- Architected a REST API using Next.js, Express, and PostgreSQL with Prisma ORM, JWT auth, and Zod validation.
- Integrated drag-and-drop task workflows with TanStack React Query for efficient real-time state management.

Latest News Portal [Project Link](#)

- Integrated Firebase Firestore for dynamic data storage and real-time content updates.
- Optimized data fetching and state management for fast page loads across news categories.

Volunteer Management System [Project Link](#)

- Designed interactive dashboards for three user roles: administrators, clubs, and general users.
- Integrated secure JWT-based authentication with email verification and token-based session management.

Education
